

# Alhydra™

## Advanced Facial Skin Serum

Specially formulated to Exfoliate, Brighten, Moisturize  
and Help to Build Collagen in Facial Areas\*

Contains: Vitamin C, Sodium Hyaluronate, Glycereryl Glucoside, Propanediol, Glycerin

Sodium Hyaluronate is an all-natural biotech ingredient which delivers deep hydration, elasticity and smoothness into facial dermis layers. It helps improve the appearance of dry or damaged skin, by restoring suppleness and improving firmness.

Glycereryl Glucoside combines with hyaluronic acid to treat dry skin, normally showing fine lines and wrinkle reduction with just two weeks.

Propanediol is a natural humectant delivering deep moisturization.

Vitamin C is effective in helping to moisturize and brighten facial skin, with added anti-oxidative action against free radicals from within and from environmental pollutants. Vitamin C also supports collagen production, for visible anti-aging benefits.

### Full list of Ingredients:

Water (Aqua), Propanediol, Glycerin, 1,2-Hexanediol, Sodium Hyaluronate, 3-Glyceryl Ascorbate, Glycereryl Glucoside, Acacia Senegal Gum, Hydroxyacetophenone, Polyacrylate Crosspolymer-6, Xanthan Gum, Citric Acid, Potassium Sorbate, Trisodium Ethylenediamine Disuccinate, Ethylhexylglycerin.
